

## Core Competencies

-  **Vibration Analysis** — When excessive vibration is detected, analysis of vibration data helps pinpoint the specific location or part that is causing the problem. Studies have shown on a 50% reduction in overall vibration levels equipment life doubles.
-  **Laser Alignment** — Perfect alignment enhances machine speeds, product quality, efficiency and reliability while controlling noise, vibration, stress and loads.
-  **In-Place Balancing** — This procedure can reduce noise, maintenance cost, and power consumption with a minimum of operational interruption.
-  **Machine Fault Detection and Correction** — By utilizing many technologies, problems can be precisely diagnosed and eliminated.
-  **Ultrasonic Detection** — a narrow bandwidth is utilized for detection of noise and vibration.
-  **Lubrication and Filtration Consulting** — Utilizing laboratory data, vibration analysis and mechanical testing, lubrication practices can be optimized.
-  **Root Cause Failure Analysis** — Equipment that suffers catastrophic or repetitive failures may require an unaffected, unbiased outside opinion.
-  **Compressed Air System Audits** — Cost of air in most facilities is far greater than demand dictates. We can survey your system and inform you of what corrections to make.
-  **Thermal Control Consulting** — Physical, emotional and mental stress all result from a hostile work environment. Productivity greatly decreases as temperature and humidity increase.
-  **Predictive and Preventive Maintenance** — The goal of predictive maintenance is not only to expect and prevent failures before they occur but rather control cost, quality and maintenance accuracy.

## Company Snapshot

**Gov. Business POC:** John Boland

 **Phone:** (251) 232 - 7163

 **E-Mail:** [john@bolandindustrial.com](mailto:john@bolandindustrial.com)

 **Address:** 3310 Washington Ave. Suite 1303  
Pascagoula, MS 39581

**Website:** [www.bolandindustrial.com](http://www.bolandindustrial.com)

**Work Area:** Nationwide

**CAGE Code:** 3P7M0

**DUNS Number:** 800392248

## Past Performance

### Department of the Army

**# of Contracts:** 1 Total Contracting Actions

**Top Office(s):** W2SD Endist Philadelphia

**Details on FPDS.gov:** [ARMY Contracting History](#)

## NAICS & PSC Codes

**541690:** Other Scientific and Technical Consulting Services

**541614:** Process and Logistics Consulting Services

**541611:** Admin. Mgmt. and General Mgmt. Consulting

**H119:** Quality Control: Ships and Small Craft

**H120:** Quality Control: Ship and Marine Equipment

**H219:** Equip. & Materials Testing: Ships and Small Craft

**H220:** Equip. & Materials Testing: Ship and Marine Equip.

**H319:** Inspection: Ships and Small Craft

**H320:** Inspection: Ship and Marine Equipment

**H919:** Other Q.C., Testing, Inspection: Ships and Small Craft

**H920:** Other Q.C., Testing, Inspection: Ship and Marine Equip.

**R425:** Support - Professional: Engineering/Technical
